Profile Summary

Product Designer with experience designing and managing digital products across fintech, investment, lending, and community platforms. Skilled in user research, UX strategy, information architecture, interaction design, wireframing, prototyping, and design systems. Led the design of end-to-end experiences including investment platforms, salary advance loan systems, onboarding flows, KYC verification, dashboards.. Passionate about creating accessible, user-centered solutions that simplify complex processes, improve engagement, and deliver measurable business value through thoughtful design and cross-functional collaboration.

PROFESSIONAL EXPERIENCE

Product Designer (Contract) | Siscom Africa | 2025 – Present

- Led end-to-end product design for fintech and investment platforms, including a Salary Advance Loan system and an investment management application.
- Designed user journeys, onboarding, KYC verification, loan disbursement, portfolio management, payment flows, and role-based dashboards for customers and internal teams.
- Conducted user research, requirements gathering, and stakeholder workshops to translate business goals into scalable digital solutions.
- Created wireframes, prototypes, high-fidelity interfaces, and design systems that improved product consistency and accelerated development.
- Collaborated with product, engineering, and business teams to define requirements, prioritize features, and optimize user experiences.
- Simplified complex financial workflows into intuitive experiences, improving usability, operational efficiency, and customer engagement.

Product Designer- Skoot (Freelance, 1-week design sprint)

- Delivered product design for two consumer mobile apps on a single platform: an on-demand gas cylinder delivery app (Skoot Gas) and an electric vehicle leasing app for income generation (Skoot Ride) within a one-week solo engagement.
- Designed onboarding, KYC verification, lease application and approval, gas ordering and delivery tracking, in-app wallets, and a battery charging flow.
- Translated stakeholder UI requirements into a complete information architecture and high-fidelity design, working solo across UX, visual design, and design systems.
- Created high-fidelity interfaces, and a shared design system used across both apps to maintain consistency and accelerate delivery under a tight timeline.
- Simplified complex backend logic gas level percentages, lease repayment schedules, and charging states into clear, low-friction user interfaces.
- Worked independently to scope, design, and deliver a complete dual-product UI/UX solution within a one-week timeframe.

Product Design Intern | Voltax Africa |September 2025 to December 2025

- Assisted in redesigning the Buma Awards platform to improve user engagement, content discoverability, and navigation.
- Conducted UX audits and usability evaluations to identify opportunities for experience improvements.
- Redesigned information architecture for award categories, artist profiles, nominations, and event content.
- Created wireframes, user flows, prototypes, and responsive interface designs across desktop and mobile platforms.
- Developed reusable UI patterns and design components that improved consistency across the website.
- Collaborated with developers and stakeholders to ensure accurate implementation of design solutions.

UI/UX Designer (Volunteer) | Tech Sisters Kenya | 2025

- Assisted in designing a community platform focused on mentorship, networking, and professional development for women in technology.
- Contributed to information architecture, user flows, wireframes, and high-fidelity UI designs across key website experiences.
- Designed onboarding, partnership, sponsorship, and membership engagement journeys.
- Developed responsive layouts and design components that improved accessibility and usability across devices.
- Collaborated with stakeholders to align community goals with user needs and engagement objectives.
- Helped create a scalable digital experience supporting a growing community of over 1,800 members..
